

MINI
WORLD RALLY CAR

"MINI Countryman provides an excellent basis from which to create a competitive rally car. In Prodrive, we have a strong and experienced partner. We will work hard together to ensure we get the project on track right from the word go"

Ian Robertson, sales and marketing BMW AG

PRODRIVE IS OFFERING CUSTOMERS THE OPPORTUNITY TO OWN THE MOST EXCITING NEW CAR IN WORLD RALLYING

Prodrive and MINI have worked together to develop the MINI Countryman World Rally Car to the new FIA regulations for 2011.

The car has been under development since the middle of 2009 and has been meticulously designed and engineered by the same team who were responsible for some of the most successful Prodrive World Rally Cars of the last two decades. Between them, these cars won six World Rally titles.

Like the MINI John Cooper Works road cars, every aspect of the new rally car has been rigorously analysed and

benchmarked, to ensure that the MINI will not only be the most desirable car available and a firm favourite of the fans, but also the most competitive.

Due to our extensive resources and an infrastructure built up over the last 25 years, we will continue to ensure that our customers have all the necessary support to optimise the performance of their car and to ensure they are expertly maintained.

We are offering two different support packages for each MINI rally car: MINI Countryman World Rally Car and MINI Countryman Super Production.

THE CARS >>

SUPER PRODUCTION

The MINI Countryman Super Production car is built to the new FIA 2011 regulations with a BMW Motorsport 1.6 turbocharged engine and Prodrive designed chassis and four-wheel drivetrain.

WORLD RALLY CAR

The MINI Countryman World Rally Car is also built to the new FIA 2011 regulations and is the same as the Super Production, but building on this comprehensive package with the addition of the WRC kit, which includes: an optimised aerodynamic pack - rear wing and front bumper - as well as uprated front brakes.

Packages start from £346,000 (plus VAT where applicable)

SUPPORT >>>

WARRANTY

Prodrive is proud to offer a 1000 km warranty for the car and all licensed parts that they will be free from mechanical defects and fit for purpose.

MAJOR UNIT REBUILD

Prodrive will rebuild the following major components: engine; turbocharger; gearbox; rear differential to the schedule below.

ENGINEERING SUPPORT - ON EVENT

Prodrive will provide a senior rally engineer to manage the car and to act as a liaison between the driver and the team to optimise the performance of the car. This engineer can also be made available for testing and development work outside of events. NOTE: the Gold package only includes an engineer for the car's first event.

ENGINEERING SUPPORT - TELEPHONE

In addition to the on-event support, Prodrive provides a dedicated telephone support service to enable our customers to speak to our engineering team. They will often be able to help solve many issues immediately.

TECHNICIAN SUPPORT

Prodrive will provide an experienced No.1 technician to monitor and work on the car and act as a liaison between the car's engineer and the team of technicians.

PARTS KIT

Prodrive will provide one set of the following spare parts on delivery of the car: uprights; driveshafts; TCAs; suspension links; engine kit; bolt kit; brake discs; brake pads; brake calipers; replacement oils & fluids. Only fitment of these approved parts maintains the warranty on the car.

REBUILD SCHEDULE

MAJOR COMPONENT	STAGE KM FOR REBUILD
ENGINE	1,500
TURBOCHARGER	1,500
GEARBOX	1,500
REAR DIFFERENTIAL	1,500
